

INTERNSHIP PROGRAMS IN THE US AND UK

Gain global work experience. Prepare for your future career. Complete project-based deliverables. Connect with international employers, local events, and fellow students.

What will you gain from a global internship?

- Expand your knowledge of an industry area and explore local business culture
- Develop your global networks and cultivate professional contacts
- Build a range of skills such as teamwork, applied research, client relations, data synthesis & analysis, communications, and time management
- Enhance abilities such as navigating ambiguity, collaborating across cultures, presenting recommendations, and employing data in strategic planning
- Deliver a project and add to your employability portfolio

“The internship training plan was tangible, task oriented and helped me hone skills related to business consultancy” (Carolina, 2021 Intern)

Sample Placement with Consumer Goods Company: develop and deliver SWOT analysis for new product and coordinate launch event

Sample Placement with EdTech Start Up: support beta testing and market expansion for language learning program

Sample Placement with Public Health NGO: collect data, synthesize findings, and present impact report for international project

The Global Career Center (GCC) team works to match each student with a team-based project that most closely connects to individual career goals, interests, and experience level. In addition to placement and support throughout the project, the GCC program includes a series of professional events and cultural activities designed specifically to make the most of the experience, connect with the local community, and build global employability.

INTERNSHIP PROGRAMS IN THE UNITED STATES

What does the program include?

The internship program is comprehensive in nature, including a personalized placement process and internship experience and career coaching. The program includes:

Phase 1 – Before the Internship

- Individual career intake meeting to review career goals and ideal project scope
- Resume/CV revision and LinkedIn profile building
- Interview preparation and skills review
- Contacting the employer for you with project scoping and workplace vetting
- Coordination of employer interviews and confirmation of internship placement
- Completion of J1 intern visa paperwork
- Preparation for the US workplace and exploration of industry-specific norms
- Help to find local housing

Phase 2 – During the Internship

- Global Career Competence Model activities
- Structured assessments through initial check in, mid-point review, and final evaluation
- Ongoing coaching and troubleshooting
- Skills-building workshops such as data analysis, research, and presenting recommendations
- Professional networking events and individual strategies to build connections

Phase 3 – After the Internship

- Reentry meeting to prepare for job market
- **Certificate of Achievement** upon successful completion of the program

When does the program take place?

Exact start date is flexible. Program duration minimum is six weeks and maximum six months. Placement process begins five months prior to anticipated start.

Where are student interns placed?

Internship opportunities are available in cities across the United States, including – but not limited to – the following locations: Atlanta, Boston, Detroit, Los Angeles, New York City, and San Francisco. Internships are within a range of host organizations, from Multinational Corporations to NGOs to Start-ups to Community Agencies to Consultancy Firms to Research Institutes.

Who is eligible for the program?

Interns must be current students or have graduated within one year of starting their placement.

How much does the program cost?

The comprehensive program fee, including all the services outlined above is 3,500 USD (including visa and insurance costs).

This fee does not include housing, transportation to and from the city, transportation within the city, food, or personal expense. Likelihood of compensation for the internship depends on student experience level, length of placement, industry norms, company policies, and current economic climate.
